

# BIO-QUANTUM SYSTEM

## What is the Advanced Bio-Quantum System?

The Bio-Quantum System is an advanced tool used to evaluate the body's harmful electrical currents. According to the Quantum Bio-Electric theory developed in Germany more than a century ago, all living creatures generate electromagnetic currents that can be measured and analyzed. The electromagnetic waves emitted by the human body represent different conditions of the human body, such as health, sub-health, disease, etc. If we can determine these specific electromagnetic wave signals, we can determine, according to the Quantum Bio-Electric Theory, the status of the body's overall health\*.
